

# RESUME GENERATOR

Name: Alankrita Upadhyay

Reg. No.: 23BCE2044

## OUTPUT:

The screenshot shows a web browser window with the title "AI Resume Generator — Professional HTML Format". The browser's address bar shows "localhost:8502". The application interface includes a "Deploy" button in the top right corner. Below the title, there is a prompt: "Fill in your resume details below". The form is divided into several sections:

- Personal Information:** This section contains input fields for "Full Name" (filled with "Alankrita Upadhyay"), "Phone Number" (filled with "4326453243"), "Email Address" (filled with "alau@gmail.com"), "Linkedin URL" (filled with "https://linkedin//alankrita"), "Portfolio URL" (filled with "Optional"), and "Address" (filled with "Hyderabad, India").
- Education & Experience:** This section has two sub-sections: "Education" with a text area containing "B.tech in computer science from VIT, Vellore", and "Experience" with a text area containing "software developer at Google for 3 years" and "-developed python apps and increased efficiency by 20%".
- Skills:** This section is titled "Technical & Soft Skills" and contains a text area with "Programming: python, java, C++", "Styling: HTML, CSS", and "Database: SQL".
- Job Description (Used to tailor resume):** This section contains a text area with the text "I am looking for a job as a software developer".

At the bottom of the form, there is a button labeled "Generate Styled Resume".
